

### MY FAVOURITE TEACHER

School is our second home. The teacher plays a great role in our life. We come to school for the first time as little children and our first teacher not only teaches us to write and read but also explains “what is good” and “what is bad”. We learn new things about the world, about the history of our country, and about many other things.

But I would like to tell you about my favourite Geography teacher. Her name is Julia Konstantinovna. She was a person who opened the way into the unknown world of adventures, travelling and discoveries. She taught us to love not only her subject but to learn world and find the place in it.

I shall never forget when I saw her for the first time. She was an ordinary person rather tall with short dark hair and stylish dressed. Nobody could call her a beauty but there was some attractiveness in her appearance. Julia Konstantinovna was kind and intelligent, and we never saw her face angry or unfriendly. We felt that she loved us and this is very important in teacher’s work.

During our classes we studied different countries, original nature, fauna and flora. We also leant something new about the world, the environment, about rivers and mountains, seas and oceans.

I am very grateful to my Geography teacher who made me interested not only in this subject, but other subjects too, particularly English language.

#### TASKS

1. **Vocabulary:** adventure, discovery, travelling, ordinary, stylish, attractiveness, appearance, intelligent, unfriendly, environment

#### 2. Match the words

1	Stylish	Person
2	Different	Dressed
3	Ordinary	World
4	Original	Countries
5	Unknown	Nature

#### 3. Which words are these words derived from?

- Teacher - .....  
Unfriendly - .....  
Particularly - .....  
Original - .....  
Attractiveness - .....
