

RUSSIA IS FAMOUS FOR ITS TEACHERS

“A good teacher can inspire hope, ignite the imagination, and instill a love of learning.”

Brad Henry

Teachers are significant persons, they are the ones who can help to build a good nation and make the world a better place. They are respected in public as they raise the living standards of people. They are essential part of society who educate people and make them better human beings.

There are a lot of wonderful teachers in our school, and each teacher has its special style. And I would like to tell you about our teacher of English D. R. Abasova. She has been working at our school as a teacher of English for 17 years. In 2002 she graduated the university with honors and started her pedagogical career. Her specialty is philology of the German and the English languages. Now Diana Raidinovna is the head of methodological association of the English language teachers in our school. She is full of different interesting and creative ideas. She always helps young teachers to prepare the modern lessons in accordance with Federal Educational Standards. Every year there is a week of the English language in our school and Diana Raidinovna is a good convener. She conducts different games, competitions, festivals, also the children puts on plays, theatrical performances and skits in English under the Diana Raidinovna direction. During the lessons she helps the students to master the English language (its difficult grammar and complex pronunciation) and to learn the traditions of English-Speaking countries, to see the beauty of language expressed in words. The children like Diana Raidinovna, they say she is young, active and helpful, pretty and elegant, she is as tender as their mother, she explains the lesson very simple in very attractive way, she is comprehensible for all students, she always smiles. So due to her method of teaching and her influential personality, each student admires and respects her very much. She can make the student feel like they always have someone to talk to if they can't do it at home or with their friends.

She is not only a good teacher; she is also a good mother of three children and a good person I have ever met. She is very good professional, responsive, intelligence person and all colleagues and children respect her.
